## OUT SYSTEM

### LA DECORAZIONE MURALE OLTRE IL SUO ABITUALE CONTESTO

**OUT System** è il rivestimento tecnico per esterni dall'alto valore decorativo, funzione primaria della carta da parati, al quale si aggiungono una nuova destinazione d'uso, nuove prestazioni e caratteristiche tecniche.

L'innovativa soluzione **Wall&decò** è dedicata a patii, terrazzi, portici e facciate, che diventano quindi superfici su cui liberare la creatività, aprendo nuovi orizzonti alla dimensione del decoro.

**OUT System** è un sistema completo di componenti - il primer, la colla specifica, il tessuto tecnico stampato e la finitura protettiva - che si applicano a strati per creare un rivestimento tecnico esclusivo resistente alla pioggia, all'ingiallimento e con proprietà anti-smog.

**OUT System** può essere applicato su pareti in cemento, in termo-cappotto e verniciate.

**OUT System** diventa un elemento architettonico a tutti gli effetti, una nuova possibilità per un'originale definizione estetica degli esterni.

## OUT SYSTEM

### WALL DECORATION BEYOND ITS ORDINARY CONTEXT

**OUT System** is the technical covering for outdoor areas with high decorative value, primary function of wallpaper, to which must be added a new intended use, and new performance standards and technical features

The innovative wall decoration solution by **Wall&decò** that turns patios, terraces, porticos and facades into surfaces where creativity can run free, expanding the boundaries of wall decoration.

**OUT System** is a complete system of components - primer, specific glue, technical printed fabric and protective finish - which are applied in layers to create a unique technical covering resistant against rain and to yellowing, with antismog properties.

**OUT system** can be applied to cement, painted walls or thermally coated walls.

**OUT System** is a truly architectonic element - a new aesthetic solution for outdoor walls.
